

• **Government records, modernized with precision.** Federal / State / Local

TrubTech Solutions converts legacy government records into secure, searchable digital assets. We pair **managed digitization** with **AI-enhanced processing** and **workflow automation** so agencies can retire paper, meet retention mandates, and operate faster. As a single accountable partner, we own scope, quality control, and chain of custody from pickup through verified handoff into the agency system of record.

#### 01 CORE COMPETENCIES

##### 01 Document Digitization

High-volume scanning and conversion of paper, microfilm, and media into compliant, archival-grade digital formats.

##### 03 AI-Enhanced Processing

OCR, automated extraction, and intelligent classification that turn images into structured, queryable records.

##### 05 CRM Implementation

Configuration and rollout of constituent and case management platforms, with clean data migration.

##### 02 Records Management

Indexing, classification, and retention scheduling aligned to NARA and agency records policy.

##### 04 Workflow Automation

Routing, approvals, and system integration that remove manual handoffs across records environments.

##### 06 IT Modernization

Targeted upgrades that retire legacy storage and manual process, reducing cost and risk.

#### 02 DIFFERENTIATORS

- **Single point of accountability.** One contract, one point of contact, and one quality standard across the entire conversion lifecycle.
- **AI on every engagement.** Automated extraction and classification add a searchable, structured layer that makes records usable at scale.
- **Auditable chain of custody.** Sampling, validation, and a documented manifest verify completeness and legibility before acceptance.
- **Local San Diego presence.** Regional responsiveness for City, County, and State of California agencies.
